

PACKAGE CONCIERGE®

Care and Cleaning

Important Product Info

Since your Package Concierge lockers are a 'high-touch' point in your community, don't forget to add them to your regular cleaning regime.

The surface of all powder coated products may be cleaned of dirt or grime with a soft cloth dampened with any mild detergent or properly diluted biodegradable, water-based cleaner, such as "Simple Green™"¹. Wipe from top to bottom to avoid run-down. Avoid use of abrasives, which might damage the product surface. Rinse with plain water and dry. Avoid cleaning during extreme temperature conditions.

To varying extents, depending upon the color, it may be possible to remove some spray-paint or marker-applied graffiti from powder coated surfaces by using a stronger cleaner such as "Krud Kutter™"² or a mild petroleum-based solvent, such as mineral spirits. Test-clean a small area first, a few seconds at a time. Do not allow chemical to remain on surface for an indefinite period, as this may damage the surface of the product. Remove any residue left with a mild cleaner, followed by water rinse as noted above.

Similar to other surfaces, a simple wipe down with a disinfecting cloth or isopropyl alcohol on the kiosk screen and locker compartment doors is also appropriate.

¹ Simple Green™, product #13102, is manufactured by Sunshine Makers Inc of California, 800-228-0709, infoweb@simplegreen.com.

² Krud Kutter™, product #GR32, is manufactured by Supreme Chemicals of Georgia, 800-466-7126, sales@krudkutter.com.
