

ELIK11A-PC

System Overview

- 1. **Locker Series:** Element Indoor
- 2. **Installation Type:** Linear
- 3. **Color Finish:** tbd
- 4. **Total Package Lockers:** 11
- 5. **Total Dry Cleaning Lockers:** 0

Site Preparation Requirements (Provided by Others):

- 1. Electrical and Internet outlets must be installed with bottom of the faceplates at 83" FFF. If outlets are surface mounted, bottom of faceplates must be at 84.5" FFF.
- 2. System dimensions shown above should be verified in the field to confirm the system fits within the desired space
- 3. Each locker module has a typical dimension tolerance of +/- 1/8"
- 4. Actual Locker Height is: 82-1/4" - 83-3/4" (range due to adjustable leveling feet)
- 5. Actual Locker Depth is: 23-7/8"
- 6. If the system will be recessed and trimmed in, all finished trim must be completed after installation
