

**System Overview**

- 1. **Locker Series:** Express
- 2. **Installation Type:** Linear
- 3. **Color Finish:** tbd
- 4. **Total Package Lockers:** 9
- 5. **Total Dry Cleaning Lockers:** 0

**Site Preparation Requirements (Provided by Others):**

- 1. Electrical and Internet outlets must be installed with bottom of the faceplates at 81" FFF. If outlets are surface mounted, bottom of faceplates must be at 82.5" FFF.
- 2. System dimensions shown above should be verified in the field to confirm the system fits within the desired space
- 3. Each locker module has a typical dimension tolerance of +/- 1/8"
- 4. Actual Locker Height is: 81" - 82-1/4" (range due to adjustable leveling feet)
- 5. Actual Locker Depth is: 22-3/4"
- 6. If the system will be recessed and trimmed in, all finished trim must be completed after installation
